HOW WE GOT HERE

- An RFX team member, Warrant Officer Brian Earley (pictured to the left) joined Honor Flight Bluegrass as a Guardian, for a mission flight in 2016 to see, firsthand, what a flight entails.
- We had **many** meetings to learn all we could about processes followed, and how flights are set up.
- We built the Honor App Program based on the original request and even MORE following our meetings and the mission we flew!!
- We tested the system against a real mission flight, gathering feedback from multiple individuals about how the system could be refined.
- We activated the system in May 2017, and have tweaked it to further refine how it helps Honor Flight organize, and manage data, and mission flights.
- First Mission ran Side by Side in September 2017
- We continue to enhance it even today!!
